4 kneading shiatsu massage nodes on revolutionary L-track system provides that give a professional massage from neck to buttock area.

Kneading

Tapping

Percuss

Size : 19 x 13 x 12.5 inch

Size : 41 x 28 x 39 inch

## 3 MANUAL PROGRAMS

3 different types of massages including Knead, Tap, and Percuss. Also includes Up, Down, and Area button to customize where to target the massages.

**HANI Kneading** is a circular technique by which the skin and its underlying structures are moved in a circular rotating motion on the underlying structures. The tissue is lifted and rolled away from the bone, and then back towards the bone with a squeezing compression action. Most effective way to loosen tight muscles and increase blood flow.

**HANI Tapping** is a set of tapping techniques which utilize the body's energy meridian points.

**HANI Percuss** is conducted in the form of rapid movements over specific areas of the body for relatively short but even sequences. Percussion massage is known to relax tense muscles by providing maximum comfort to your back, neck, and shoulders.

## COLOR OPTIONS

## TIME ADJUSTABLE

Time adjustable function has been added to the user-friendly remote that gives you an option of adjusting the time to 10-15-20 minutes.

## EASY TO USE REMOTE CONTROL

Simply designed remote control can massage your body in auto or manual massage programs.

## 4 AUTO PROGRAMS

4 Different auto programs that target different area's of the body which includes Full Body, Neck, Back, and Seat.

**Full Body** - Along with relieving pain, receiving full-body massage on a regular basis helps keep all your joints limber, which reduces your chances of pulling a muscle. It also improves your posture and flexibility, increases the range of motion, lowers blood pressure and heart rate, encourages relaxation and relieves stress.

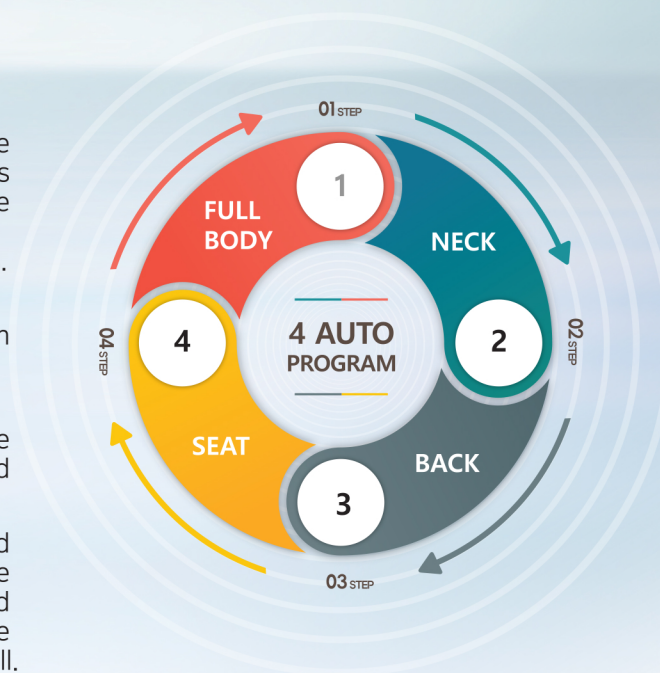

**Neck** - Focus on neck and shoulder area massage will reduce tension on stressed muscles during the busy days. Great program for office workers or who gets high level of stress in daily life.

**Back** - Focus on the upper and lower back area massage will increase blood flow and circulation. Back massage will decrease tensions in the massaging area and improves your posture and flexibility.

**Seat** - Focus on the buttocks area will help alleviate the pain and tensions associated with tight glute muscles. Gluteal muscles are used almost every movements of the human body. Specialized seat massage will increase overall comfort by relieving core tension. Also, seat massage can increase lymph circulation as well.
